

HELLO! My name is Isabel and I'm a creative leaping into tech! After many years in the artworld focusing mostly on sculpture and ceramics and digital design I am taking a step into a new direction in tech. I am originally from Sundsvall, but have lived in Stockholm for almost 10 years.

If I'm not spending time with my little family, I'm learning new recipes in the kitchen, creating art in any form or enjoying nature, culture and art. I have previously always been the tech-savvy person in creative and social spaces so I'm now working towards flipping that around, becoming the social creative person in tech spaces.

EDUCATION

Hyper Island, Stockholm, YH - Frontend Developer - 2025-2027

Right now at Hyper Island I am learning how to create user experiences in web and apps using HTML, CSS, JavaScript, React and a variety of different tools and languages. The school's approach to hands-on learning and focus on teamwork really align with the kind of developer I want to be.

Konstfack, Stockholm, Bachelor of Arts - Ceramics and Glass 2018–2021

During my time at Konstfack I learned the fundamentals of ceramic craft, glass blowing and history of arts, design and crafts. I also learned how to take a project from an idea to collaboration, execution and then presentation. While the school focused a lot on artistic development, techniques and theory, the school also gave an unique insight and training in project management, the economics of a creative project and how to collaborate with design brands, public agencies and galleries.

Umeå University, Summer course: Cultural Crafts – Tradition, Crafts and Innovation, 2019

During the course I learned of different traditional crafts, such as woodworking, wool and textile crafts while also continuing the conversation on innovation and sustainability and the future of Swedish craftsmanship.

Kronobergs Konstskola, St Sigfrids Folkhögskola, Växjö - Foundational art education 2016–2018

The school taught me different creative techniques and artistic expressions, curating and participating in several exhibitions and helped me shape my own artistic voice.

Skvadern School, Sundsvall - Arts programme 2010–2013

Upper Secondary School in Sundsvall, Sweden. The program focused on creating a base of knowledge in Graphic Design, Photography, Painting, Sculpture and Printing-techniques.

EXPERIENCE

NYTIDA/ Assistant Coach

DECEMBER 2021 – AUGUST 2025 Stockholm Globen

At Nytida I planned and facilitated creative and developmental activities for individuals with intellectual disabilities and autism, both individually and in groups. Supported participants in working toward their personal goals through structured, motivating and person-centred approaches. Led activities in art, crafts, culture, movement and digital media to encourage participation and self-expression.

I provided support in daily routines and managed challenging situations using a low-affective and solution-focused approach. Documented progress according to social care guidelines and collaborated with colleagues and external partners, including organisations such as Sellpy, Eldstickan, Aldrig Ensam and Normal, to create meaningful work and activity opportunities.

Ceramic & Visual Artist / Selfemployed

[SUMMER 2021 - Stockholm](#)

As an artist I have developed a practice around earthy materials and digital methods. Creating ceramic sculptures, spatial installations, and graphic artworks. I have produced exhibitions around themes and collaborations, coordinate logistics for large-scale ceramic and spatial works. As a graphic artist I have created digital artworks for Medel Collective - 50x70 digital art exhibitions and created graphic design for marketing art-exhibitions, both outdoor advertising campaigns and on social media.

Member of ceramic studio collective Drömhästen

[SUMMER 2021 - Stockholm](#)

After graduating my BA I created a ceramic studio collective called Drömhästen with fellow artist classmates. I contributed to studio operations, including workspace management and kiln scheduling, participated in group critiques and creative development sessions and collaborated with fellow artists on shared studio projects and exhibitions.

Växjö Konsthall/ Art Educator

[FEBRUARY 2017 – MAY 2018 / PART-TIME](#)

Lead the “Konstlabb-lördagar” for children within the ages of 5–12 years. Where I planned and implemented art educational activities based on current exhibitions at Växjö Konsthall.

KFX HR Partner/ Receptionist

[SEPTEMBER 2014 – JUNE 2015 - Stockholm](#)

I was trained as a receptionist at 15 different companies, including Schibsted, Siemens, the Red Cross HQ and Egmont. Duties included giving visitors and employees a warm welcome, switchboard handling, administration, mail and travel management and conference hosting.
